## GLAUCOMA UPDATE in the Napa Valley

September 24-25, 2010  
Meritage Resort  
Napa Valley, California

### EDUCATIONAL OBJECTIVES

The proposed course will provide the general ophthalmologist and the glaucoma specialist with updated information on the diagnosis and management of glaucoma patients. Upon completion of this activity, attendees will be able to: 1) Use comparative methods for evaluating glaucoma. 2) Learn how specific types of glaucoma present specific clinical problems in regard to clinical context and to cultural and ethnic differences. 3) Understand and determine the best medical treatment available for various types of glaucomas, including determining which medications might be best tailored to a specific clinical situation, and the latest treatments including neuroprotection, and nutritional supplements. 4) Be aware of the latest and various types of laser treatments and determine which is best for a specific patient. 5) Become aware of the new glaucoma surgeries, determine the suitability of each type of surgery for glaucoma, and be aware of techniques and methods for avoiding surgical complications. 6) Be aware of the best tips from the program faculty to improve the care of patients, including a Journal Club presentation that will present a discussion of the best glaucoma papers published the past year. The papers will be sent to all pre-registered attendees in advance so that they will be able to more effectively participate in the discussion.

### ACCREDITATION

The University of California, San Francisco School of Medicine (UCSF) is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. UCSF designates this educational activity for a maximum of 14.25 hours AMA PRA Category 1 Credit(s)<sup>TM</sup>. Physicians should only claim credit commensurate with the extent of their participation in the activity. The cases used in this course are presented for teaching purposes only. Please observe patient confidentiality. This presentation may be protected under Evidence Code 1156, 1157.
